

Software

ADMINISTRATOR

ProAccess SPACE lets users choose and pay for only the features and functions they need now, with the flexibility to upgrade accordingly in the future as their needs grow. With ProAccess SPACE perpetual license system, you pay once for the features you need, and if new needs arise, you can easily and quickly upgrade your license, increasing the functionality and with the convenience you need.

Matrix Functions and Locations

The combination of users to doors and their different functions can cause occasional keying problems when designing the access plan. The Matrix Access Function simplifies and streamlines the link between users and doors, making access planning simple and straightforward.

Function is only available as a separate add-on and is not included in any predefined package.

Visitor Management

The Visitor module enables you to issue visitor cards for a few hours, a few days or for something in between, and all with a built-in cancellation date that will disable the credential automatically.

Feature included in: SPAIDSYS and SPAPART packages.

Badging

The badging module enables users to create templates for card credentials via information from the user's access plan data. The cards can be customized both internally and externally.

Feature included in: SPAIDSYS and SPAPART packages.

Locker Locks

As part of the HS4 platform, our locker locks can also be managed through ProAccess SPACE software. This provides an impressive range of options including free assignment mode, family mode, subject to calendars, etc.; almost unlimited possibilities.

Feature included in: SPABASIC, SPAONLINE, SPAIDSYS and SPAPART packages.

Partitions

Department operator enables properties to be managed independently but while retaining shared access privileges. Individual buildings can be run by their own managers, controlling their own user's access rights.

Feature included in: SPAPART packages.

ADVANCED SECURITY

ProAccess SPACE lets users choose and pay for only the features and functions they need now, with the flexibility to upgrade accordingly in the future as their needs grow. With ProAccess SPACE perpetual license system, you pay once for the features you need, and if new needs arise, you can easily and quickly upgrade your license, increasing the functionality and with the convenience you need.

Lockdown

ProAccess SPACE software enables users to make an emergency lockdown of a property in the event of a security incident.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

AMOK

AMOK electronic escutcheons have a built-in card reader on the inner escutcheon that enables users to activate the AMOK function mode in order to lockdown a room quickly. Only authorized users with AMOK privileges on their access plan can activate it.

Feature included in: SPABASIC, SPAONLINE, SPAIDSYS and SPAPART packages.,

Anti-Passback

The Anti-passback feature establishes a specific sequence in which access cards must be used in order for the system to grant access.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

Automatic Key Assignment

Automatic key assignment is a tool that enables the encoding of key cards directly via a wall reader at the main point of access. This can be done the first time a user presents their card, saving time and the need to queue for card validation.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

Event Engine

ProAccess SPACE can now manage specific event-triggered actions and alarms. The Event Engine's intuitive wizard permits programming of any event audit trail or any event-triggered action through the CU42xxx inputs to automatically perform defined actions, such as activating CCTV recording, sending e-mail alert notifications, activating lockdown, etc. An event can be scheduled or triggered by a user, user group or door event through an audit trail event or HS4 2.0 Controller inputs.

Function is only available as a separate add-on and is not included in any predefined package.

INTERFACING

ProAccess SPACE lets users choose and pay for only the features and functions they need now, with the flexibility to upgrade accordingly in the future as their needs grow. With ProAccess SPACE perpetual license system, you pay once for the features you need, and if new needs arise, you can easily and quickly upgrade your license, increasing the functionality and with the convenience you need.

Event Stream

The Event Stream option generates real-time notifications to third party systems. The idea is to filter the audit trail and send the selected events so that the order system can process the received information and perform a real-time action.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

SHIP Integration

The Host Interface Protocol enables users to integrate their HS4 Access Control system with other systems i.e., CCTV, fire alarm, traditional access control, etc., all via the same software.

Function is only available as a separate add-on and is not included in any predefined package.

Mobile Users

Mobile permits registered users to use their BLE-enabled smartphone as their credential, or their NFC-enabled smartphone to serve as a remote updating point to keep their access rights always up to date. ProAccess SPACE software permits the specific selection of which mobile solution -- JustIN Mobile or JustIN mSVN -- is appropriate for each individual user.

Function is only available as a separate add-on and is not included in any predefined package.

Operators Profile

Each system operator can customize the look and feel of its own GUI by pre-defining the language, which encoder is to be used, column sorting etc... allowing a more efficient multi-user environment.

MAIN FEATURES

ProAccess SPACE brings together a superior level of flexibility and functionality with an easy to use, web-based interface and logic that enable the straightforward management of access control installations. ProAccess SPACE lets users choose and pay for only the features and functions they need now, with the flexibility to upgrade accordingly in the future as their needs grow. With ProAccess SPACE perpetual license system, you pay once for the features you need, and if new needs arise, you can easily and quickly upgrade your license, increasing the functionality and with the convenience you need.

Simple but Powerful Solutions

ProAccess SPACE gives you all the potential of one complete access control software package, whatever the size of site.

- 4,000,000 users.
- 65,000 doors, lockers, controllers...
- Unlimited user

The Power of an SQL Motor Engine Database Made Easy

Allows management of peripheral devices from your web browser, even on client workstations without any additional configuration, bringing more flexibility and convenience to your management routines.

- Reliable and secure database infrastructure (SQL authentication or Windows-based authentication).
- No complex installation or need for advanced IT department or knowledge.
- No expensive licenses.
- Suitable for high shigh-securityyllations that require compliance with the highest IT standards.
- SSL protocols to warranty the security.
- Encrypted communication between the software and HS4 devices.

Host Interface Protocol (SHIP)

The Host Interface Protocol enables users to integrate their access control system to other systems, i.e., CCTV, fire alarm, traditional access control, etc., all via the same ProAccess SPACE software.

Mobile Access Control with JustIn Mobile

ProAccess SPACE software enables users to the benefit of mobile technology through JustIN mSVN or JustIN Mobile. Both of these mobile solutions bring better security and usability to end users as well as system managers. End users gain convenience and productivity without sacrificing security, while facility managers distinguish their property with cost-effective solutions that clients truly value.

Multi-Workstation without Multi-Station Desktop Installation

Our web-based interface means the system can be managed or operated from different workstations simultaneously without risk of database corruption.

No need to install the software on all operator PCs. Simply install ProAccess SPACE SERVICE in one server or computer, then give access to other authorized computers inside the network.

User-Centered Interface Design

ProAccess SPACE has been designed to meet the needs of all of our users, providing an efficient tool that makes their daily tasks easier, faster and more productive.

- More intuitive and user-friendly interface, with one window from which an operator manages all the tools needed
- Multi-windows interface
- Multi-language interface
- Interface alerts of potential

Compatible with Multiple Browsers and OS

ProAccess SPACE software client interface works with Microsoft Explorer, Safari and Firefox and can also be used with Windows tablets. Just a Silverlight plug-in needs to be installed and that's it.

Customize Operator Profiles Including Security Levels

Operators are in control of the access plan management, so that's why ProAccess SPACE has a lot of functionality around operator management.

- Customization of the operator profile and operator workspace.
- Operator password protection for a higher security.
- System auditor to track what changes have been done by which operators.

MONITORING

ProAccess SPACE lets users choose and pay for only the features and functions they need now, with the flexibility to upgrade accordingly in the future as their needs grow. With ProAccess SPACE perpetual license system, you pay once for the features you need, and if new needs arise, you can easily and quickly upgrade your license, increasing the functionality and with the convenience you need.

Online Monitoring

ProAccess software enables you to monitor in real-time not just battery status or if an update is needed, but also who accessed what door and when, if a door has been left open, intrusions, etc. Total control, all in real-time.

Feature included in: SPABASIC, SPAONLINE, SPAIDSYS and SPAPART packages.

Roll Call

Through the Roll Call function, you can track where users are in different roll call areas in real-time.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

Limited Occupancy

Using the Limited occupancy feature, you can control the maximum number of authorized users. The system will automatically deny access once set occupancy levels are reached, re-granting access if or when the limits are reset.

Feature included in: SPAONLINE, SPAIDSYS and SPAPART packages.

Graphical Mapping

Graphical mapping is a visual interface that permits monitorization of users' access to online wired and wireless access points in real-time throughout the building layout.

Function is only available as a separate add-on and is not included in any predefined package.
